

## TSCA 6(h) Compliance Statement ACRYLITE® and ACRIFIX® Products

Date: 1 Jan 2026

As required under the Toxic Substances Control Act (TSCA), as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, EPA issued five final rules in December 2020 to reduce exposures to certain chemicals that are persistent, bioaccumulative and toxic (PBT). These chemicals build up in the environment over time and can therefore have potential risks for exposed populations, including the general population, consumers and commercial users, and susceptible subpopulations (such as workers, subsistence fishers, tribes and children).<sup>1</sup> The final rules are published in the Federal Register and govern the 5 PBT substances listed in Table 1.
