The map will show the latest location of the shipment.

# HOW TO NAVIGATE THE TRACKING LINK

Tracking Milestones will share every update on a load – delay change, truck assignments, appointment reschedules, and many other details.

# QUESTIONS

## How frequently does the link update?

*Typically, the link will update the location and corresponding ETA and status every 15 minutes. Some carriers may update less frequently.*

## What do I do if there is no tracking information on the link or no tracking link?

*There are a select few carriers still in the process of being onboarded to the FourKites network. Please contact your customer service representative as you would have previously.*
